INTERNSHIPS

1) Indian Institute of Management, Ahmedabad	[May '19 to July '19]
Summer Project Intern Guide: Professor Sanket Mohapatra	
Worked on a website and software which automates the manual process of downloading data from the sources by consuming APIs through an automated web portal.	

PROJECTS

1) Question Portal Nodejs	[July '20 to Aug '20]
NodeJS app for accepting the competitive programming questions from the SEs, which we used in creating the question dataset of the competitive coding event (Clash RC)	
Project Link: http://pisb.gauravghati.world	

2) NCC Django REST	[Aug '19 to Sep '19]
NCC is a online coding contest conducted by the IEEE club of the College <ul style="list-style-type: none"> • Working in backend and creating Rest APIs from where the data is fetched. • Implementing sandboxing env to run c/cpp codes in the backend • Deploying whole application on the internet. 	
GitHub Link: https://github.com/CTD-NCC/NCC20/	

SKILLS	
Technical Languages:	CPP, JavaScript, SQL, python
Tools and Software:	Git, Linux, Docker, MongoDB, NGINX, Google Cloud, MySQL

ACHIEVEMENTS AND POSITIONS OF RESPONSIBILITY
- Won various intra-college Competitive Coding Contests.
- Technical Head at PISB: PICT IEEE Student Branch(PISB) is the student branch in PICT college. The student branch almost contains more than 300+ members in it, my role is to help the club to increase technical activities. My Role as Technical Head: <ul style="list-style-type: none"> • Organised Tech Fest (Credenz '19) in the college • Took SIGs and technical talks for students. • Helped to increase technical activities in student branch.
- Volunteer at Teach For India for more than 6 months. <ul style="list-style-type: none"> • Helping Students in there academics subjects like maths, sci and geography. • Question paper setting for them. • evaluation of answer papers.
